What is Flexible Scheduling?

School day is broken into mods

Mods scheduled between 20-30 minutes

Combine the mods to meet instructional framework

Allows free periods for students and faculty during the day

Some classes meet two, three or four times a week

Teachers will teach 1250 minutes per week; Teachers can flex time to leave when professional obligations are met

Benefits of Flexible Scheduling

Allows students to take extra classes

Minimizes course conflicts

Increases acceleration, intervention and remediation opportunities

Classes Vary in length and size

Large Group: Whole group instruction for smaller 25-30 minute mod

Small Group: Discussions, develop communication skills, participate in the class with guided assistance

Laboratory: Projects, practice sessions, science experiments, CTE Classes
